MEDYA ASGHARYAN

PRODUCT DESIGNER | UX RESEARCH | AI EXPERIENCES

Toronto, Ontario | 437-429-4744 | asgharyan.medya@gmail.com
Portfolio: m3dya.github.io | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Product Designer with 3+ years designing web and mobile products from discovery through launch, backed by 60+ user interviews and usability sessions. Simplifies complex workflows for everyday users, cutting a core AI workflow by 43% and a website navigation by 57%, and designs AI experiences people can trust and control. Prototypes rapidly in Figma, AI prototyping tools (Figma Make, Lovable) and code (Cursor, Claude Code, HTML/CSS/JavaScript). Brings a Master of Design and 4 years of architectural design, and works side by side with product, engineering and QA in Agile teams.

PROFESSIONAL EXPERIENCE

Freelance Product Designer | Ontario Daycare Access | Nov 2025 – Oct 2026

- Took a self-serve childcare platform from discovery to launch across web and mobile for parents and childcare providers.
- Led user research with **45 parents**, from interviews and usability testing to synthesis and prioritized product improvements.
- Simplified enrolment for first-time users by moving sign-in later in the journey after usability testing identified early-stage friction; validated the change with interactive prototypes.
- Developed user flows, journey maps and service blueprints through co-design workshops with parents and providers.
- Reviewed the build against designs and tested multiple user roles, documenting **15+ defects** for developers and QA before launch.

Freelance Product Designer | Finch 3D | Mar 2025 – May 2025

- Investigated onboarding abandonment through product evaluation, competitive analysis of AEC software and architectural domain knowledge.
- Designed a guided four-step onboarding flow with contextual guidance, real-time input validation, micro-interactions and high-fidelity Figma prototypes.

Freelance Product Designer | IdeateLive | Mar 2024 – Jan 2025

- Redesigned a core AI workflow from seven steps to four (**43% fewer steps**) across web and mobile.
- Designed review, edit and approval controls for AI-generated content so users stay informed and in control, addressing trust concerns found in research.
- Conducted **17 interviews and usability tests** to identify onboarding barriers and concerns about AI-generated outputs.
- Built reusable Figma components and UI patterns for consistent experiences across screen sizes.
- Partnered with the CEO, developers and QA in Agile sprints, turning insights into user stories and backlog priorities.

UX Researcher & Service Designer (Volunteer) | GLOCAL Foundation of Canada | Feb 2023 – Jan 2024

- Interviewed and tested with multilingual, low-digital-literacy users; audited information architecture and gathered survey feedback.
- Redesigned website navigation from 14 items to six (**57% fewer**) using an interactive Figma prototype; recommendations were adopted in the redesign.
- Synthesized 11 Statistics Canada reports spanning 24 years into a 12-panel evidence brief for a government audience.

Architectural Designer | Archimama, Milan | Feb 2019 – Nov 2022

- Designed 10+ projects in multidisciplinary teams; researched needs across 70+ homes and presented findings to 75+ residents, incorporating feedback into design decisions.

CORE SKILLS

Product & interaction design: Interaction design, information architecture, workflow simplification, AI experience design, user flows, journey mapping, wireframing, high-fidelity UI, micro-interactions, mobile and responsive web design.

Rapid prototyping: Figma, Figma Make, Lovable, Cursor, Claude Code, HTML, CSS, JavaScript.

UX research: User interviews, usability testing, surveys, co-design workshops, competitive analysis, research synthesis.

Design systems & accessibility: Figma components, component libraries, design systems, WCAG fundamentals, colour contrast.

Tools & teamwork: Adobe Photoshop, Illustrator, XD, Jira, Confluence, Miro, Maze, UserTesting, Dovetail, Qualtrics; Agile, user stories, product, engineering and QA collaboration.

EDUCATION

Master of Design | Politecnico di Milano, Italy | 2016 – 2019 | WES-evaluated
UX Design Certificate | George Brown Polytechnic | Nov 2023 – Mar 2024 | 96/100
Front-End Development Certificate | George Brown Polytechnic | Dec 2023 – Sep 2024 | 99/100

LANGUAGES

English, Persian and Italian (fluent); French and Arabic (intermediate).
